Mitt Romney	Texas Instruments, Lehi Semiconductor, Factory	No IRA Mention	Clean Technology		Texas instruments	Utah		\$11,000,000,000		00 Opposed	"U.S. Senator MIT Romney (R-UT) today applauded an announcement by Teas Instruments Incorporated (TI) that it has selected lahi, Utah, for its next 300-millimeter semiconductor wafer fabrication plant (or faib) [] 'Utah continues to be a great place to do business, and today's announcement further proves that,' Senator Romney said. 'I was proud to support the legislation that made this historic investment in our state possible, which will strengthen our country's manufacturing capabilities and help break U.S. dependence on Chiai for microchips. Teas Instruments' new facility will also bring hundreds of jobs to Lehi and the surrounding area. We must continue to promote innovation, foster scientific fallent, and expand U.S. research if we are going to compete with Chiao on the world stage, and today's announcement is a strong step in the right direction."		"@TXInstruments' decision to build a new semiconductor facility in Lehi proves that Utah continues to be a great place for business. This historic SII billion investment will strengthen our country's manufacturing capabilities & help break U.S. dependence on China for mircorchips."	https://twitter.com/	
Shelley Capito	Cleveland-Cliffs Electric Grid Transformer Steel Manufacturing Facility		Grid and Transmissic		Cleveland-Cliffs	West Virginia				00 Opposed	"Thrilled about the announcement that Cleveland Cliffs will receive funding to repurpose their plant in Weitron. After some challenging times, this is welcome and encouraging news for Weitron, and it means that we are preserving and expanding the most talented workforce in the nation."				
Shelley Capito			Batteries		Form Energy Inc.	West Virginia		\$760,000,000		50 Opposed	"Once again, West Virginia has won a highly competitive process to bring new jobs and opportunities to the Mountain State. Today's announcement was truly a collaborative effort, and I want to congratulate Governor Justice, Secretary Carmichael, and the leadership of the West Virginia Seante and House of Delegates in working together to bring Form Energy to our Northern Panhandle. If West Virginia is going to continue to be an energy state, we must embrace new technologies, but also tell our story on a national and global level. I look forward to working with the visionary leadership of Form Energy as they ramp up their production in West Virginia, and look forward to more positive developments for our home state in the future."		"ICYMI: Looking forward to working with the visionary leadership of Form Energy as they ramp up their production in West Virginial More details via	https://twitter.com/

This development serves as one more example of our state's commitment to job creation and economic development that will result in positive change and growth for generations to come."	https://www.capito.se			Attended Groundbreaking
Shelley Capito	Pure Watercraft, Electric Boats, Manufacturing Facility	No IRA Mention	Electric Vehicles	Manufacturing	Pure Watercraft	West Virginia	2	\$5,000,000	10	00 Opposed	"Whether it's cruising Summersville Lake, a day at Bluestone Lake, or fishing in the Cheat River, West Virginia does not disappoint when it comes to a fun day on the water, and Pure Watercraft understands that, Several months ago, I had the opportunity to meet with Pure Watercraft to learn more about their vision for outdoor recreation in West Virginia, and "in thrilled to see this rows coming to fruition," U.S. Senator Shelley Moore Capito (R-WV) said. Pure Vatercraft's facility in the Northern Penhandle will help create jobs and further expand our recreation tourism focus in West Virginia, and we are thrilled they chose to invest right here in the Mountain State."		"This is a renewal of a vibrant and active workplace to be a vibrant and active workplace for the future," U.S. Sen. Shelley Moore Capito, R-W.Va., said. Capito was among the dignitaries on hand for Minday's event, undir Pure Watercraft is one more indication of a transition in the nation's energy sector, as well as an indication of the efforts to invest in the future of West Wignia and the creation of jobs. We re excited to see not just that first product, but many more in the future, she said."		r Attended Groundbreaking
